# Nevada City Nugget

VOLUME V, NUMBER 30. THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA THE COUNTY SEAT PAPER FRIDAY, JULY 10, 1931

## GRASS VALLEY FOURTH IS SUCCESSFUL EVENT

The Fourth of July celebration in Grass Valley has been proclaimed a success by all who attended. The parade which lasted 1½ hours was enjoyed for the beauty of the floats or depicting little glimpses of some great events in the past history of our country, with a few comic ones thrown in for good measure.

To Mr. Bert Chegwidden great credit is due for the able manner in which he carried out the four days of events. Messrs. Frank Davies and Elza Kilroy of Nevada City are also to be praised for preparing the Nevada City floats and having everything go off so smoothly. It is thought that fully 10,000 people were on the streets during the parade .

The Nevada City floats were as follows:

Ed M.Martine preparing hot cakes for breakfast with 83 year old Charles Alford operating the old fashioned gravel rocker, entered by The Nevada City Nugget.

Homes Among the Hills, by the Chamber of Commerce, with little Tommy Barry and Helen Holmes sitting in domestic content.

Modern Prospectors, Milton Masters and Carl Hieronimus, in a rickety automobile of popular make

Mrs. Talbots class attired in gay tri-colors, entered by Hydraulic Parlor No. 56 Native Sons; composed of Dave McCraney, Walter Warnecke, Margaret Smittcamp, Annie Lou McCraney, Betty George, Sylvia Moody, Mary Warnecke, Violet Rolman, Betsy Bennett, Alberta Bolton, Marian German, Adele Curnow, Jean Roesner and Rut Curnow.

Nevada City Fire Department, credit for decorating is given Mrs. Herbert Hallett, Gilbert Clarke and Otis Hardt. It represented a gay speed boat with pastoral colorings.

Ray Teale entered a taxidermy float showing his skill in munting mostly local animals and birds and curing of skins.

Marsh Lumber Company and the County Farm had the mythical Uncle Tom's cabin. Eva and Topsy were Mynolla Marsh and Lorraine Lewis, while Mr. Burke accepted the role of Uncle Tom.

The decorated cars were, Nevada Officials, Miss Helen Chapman, Elza Kilroy, Frank Davies and Marshall Giselman.

In conclusion we wish to make particular mention of Fire Chief Otis Hardt, Mrs. Herbert Hallett, Gilbert Clarke and Joe O'Neil who worked all of Friday night on the Fire Department float when they had already spent several evenings earlier in the week on another float.

It was the unanimous opinion that the Nevada City Fire Department float would have won second honors if the Fourth of July Committee of Grass Valley had been giving prizes. The float represented a speed boat in pastoral shades.

Also Mrs. Talbot should have special praise in preparing the 12 kiddies to represent an interpretation of our national colors.

## RUBY MINE HAS CREW MEN WORKING

The Ruby Mine is being opened up at a rapid rate with 20 men employed. This is a gravel property and derives its name from the rubies found in the gravel with the gold This mine has a past production record of $2,000,000. The ground is patented and consists of 435 acres. A drift tunnel is being run and gravel is being washed. They have plenty of water.

The vein system of Alleghany in which are located Tightner, Red Star Sixteen to One, and numerous others, enter the Ruby on the south.

On the same contact that passes through ground on the north lie City of Six, Dolan and others.

Nuggets ranging from $10 to $600 are often found in the gravel channel.

In 1929 a 10X12 Sullivan comperssor was installed and electric power from Alleghany-Downieville line was installed at an approximate cost of $1,600.

Several quartz ledges have been cut and good values are known to exist.

Mr. Craig is superintendent of the mine.

## GOODYEARS BAR SEES MINING BOOM

Mining in the Goodyears Bar Section is progressing at a lively rate with many mines being opened and reopened.

## GOLD BAR MINE ON ROCK CREEK

C. Layboyteaux of Pasadena has a crew of 6 men driving atunnel in the Gold Bar mine. This tunnel is being driven to cut two veins on tne Alleghany contact. The formation is serpentine and is in the rich Alleghany belt.

A ten stamp mill and compressor are onthe property. The machinery is run by gasoline and crude oil, with motive power generated by a deisel engine.

This property is situated a short distance above Goodyears Bar on Rock Creek.

Andrew Carey is amalgamator at the property.

## BRUSH CREEK MINE IS ON PAYING BASIS

A 40-foot shaft has just been completed at the Brush Creek Mine, which work has been going on since January. There has been no interruption ,however, in the production at this property.

The new shaft is a continuation of the old one and opens up a body of ore estimated at approximately 35,000 tons of good milling rock.

About 100 tons of ore per month have been put thru the mill at this property during the last15 months, according to Ben F. Ballard, superintendent. The Brush Creek has been on production for that length of time, with no assessments having been levied on the stockholders.

Fifteen men are employed, and the vein where encountered by the new shaft will be prospected both north and south. —Mountain Messenger.

10-1450 pound stamps were added to the Brush Creek mill the latter part of 1928. A 90 foot drift showed values running from $7 to $9 it was said.

In July 1928, 5 stamps were added. A rich shoot of ore picked up in 1927 was passed and the ledge matter showed excellent width, the average distance was 16 feet between walls.

The Kate Hardy Company had 3000 feet of property along the main vein system, which made it possible for large scale operations after sufficient development work had been done.

Three thousand feet of air pipe was run from the surface to the bottom of the shaft.

A new electric hoist was installed in June of 1928, in the shaft.

We have known for some time that Mr. Ben F. Ballard,, superintendent, has had the mine on a paying basis.

## WORK PROGRESSING AT TIM DOLAN MINE

Mr. Armstrong, superintendent of the Tim Dolan quartz mine, has a crew of men at work in the mine. He plans to sink the shaft 150 feet deeper before doing exploration work.

A gallows frame has been erected. This property is above Goodyears Bar on Rock. Creek.

## KIRKPATRICK MINE WORKS SMALL CREW

Mr. Nightengale, who is superintendent of the Kirkpatrick gravel mine, has four or five men employed. There is plenty of water in Rock Creek for mine operations and a number of properties are working.

This mine is situated on the ridge above Goodyears Bar and water from the mine empties into Rock Creek above town.

Mr. and Mrs. Frank Solus and family of Edgewood, Siskiyou County spent the July 4th holidays at Mr. and Mrs. Earl Covey's in Grass Valley. Mrs. Covey is their daughter

## HODGKINSON HAS FAITH IN CITY OF SIX

Mr. Hodgkinson, who is from Los Angeles and owner of the City of Six mine above Downieville has four or five men employed.

The pack train went in Thursday with supplies from Downieville. A blower was taken in Wednesday to add to the present machinery.

In 1929 a rich strike of ore was made in the City of Six just before closing down for the winter months.

In 1929 the City of Six was operated through a tunnel 2400 feet in length that gave 800 feet of backs.

This property is on a contact that runs into the Alleghany district and passes through the north of the Ruby holdings, Dolan and others.

A novel has been written on the City of Six which gave it great noterity at the time.

Mr. Hodgkinson has patiently worked this mine about 19 years and reports recently were that he had struck it rich.

When a man has the courage to stay with a mine that long developing and opening up the property all we can say is we hope that he will fulfill his long cherished desire to make a rich paying property.

## NEW MACHINERY FOR THE MT ALTA MINE

A gold saver is being installed in the Mt. Alta mine according to Mrs. Nels Chatfield, superintendent, who was in Nevada City Thursday.

Minerh have been quite busy There has been plenty of water to proceed in the gravel sluicing at the Mt. Alta mine this season. A crew ofmen have been employed for some time at the property.

This property is situated near Camptonville and there are several others nearby, among them being the gravel mine of Fred J. Joubert, and the Garden Valley district where a dredger has been operating onthe stream.

## GREYSTONE MINE HAS CREW OF MEN AT WORK

A crew of 4 or 5 men are employed at the Greystone mine on the Spanish Ridge. Charles Hegarty is the owner and is superintending the work at the property.

The formation is serpentine and slate. Mr. Hegarty plans to continue driving tunnel until they strike a big ledge that is known to exist and which carries satisfactory values

### NEW MINING JOURNAL SOON TO BE PUBLISHED

An announcement was made in last Friday's issue of The Nugget that the publisher was preparing to issue a monthly magazine in connection with The Nugget.

Since that time 20 subscriptions have come in some from long distances.

Advertising is coming in at a good rate and the first issue will soon be on the press.

Get your orders in early so as to secure a copy as soon as they are completed.

A number of excellent articles on mining are to be written by men of wide experience along mining lines, and this book will be not only interesting but of value to minnig men as well as mine investors.

## BROCKINGTON ASSUMES CHARGE GOLDEN CENTER

Charles C. Brockingtion has assumed the management of the Golden Center mine under the Colley Butler regime, represented by L. S. Wincapaw.

Wincapaw. Mr. Brockington is 73 years of age but assumes responsibility with wisdom of mature years and knowledge of the working of this property as he was in charge 13 years before when it was closed down.

A crew of 7men are employed retimbering the first 100 feet of the shaft. It was found that timbers are in good condition from the 100 level to the 500 level. Retimbering will follow as fast as the mine is dewatered. When the cleaning out and retimbering are complete it will take only a few days to install electricity. A crew of men will then be put towork developing the mine into one of the big producers of the Grass Valley District.

The property is in the heart of the town of Grass Valley. Mr. Colley Butler will use this property to run a tunnel into other priperties adjacent.

## LASSEN COUNTY MINING NEWS OF NOTE

The Diamond Mines, Inc., are preparing to install a mill on their property on Diamond Mountain. George N. McDow is president of the company and states tney have 100,000 tons of ore blocked out for milling. There is an abundance of water for milling which is welcome during this dry season. The mine is six miles north of Engels, on the Honey Lake Valley side of Diamond Mountain.

Reports from the Honey Lake Gold Mining and Development Company near Milford, are that the company has driven into a large water ledge in the tunnel they are driving. They were seeking water and found it in this ledge composed of porphyry, talc and other volcanic sediment.

About seven feet per day were averaged until the water was encountered. Timbering has had to be resorted to through this vein. A diamond drill was used in exploring. It has shown that this water ledge is about 35 feet wide, however the 30 foot ledge just beyond carries satisfactory values. A 50 ton unit of the mill will be built as soon as more ore is exposed in planned tunnelling. Sundbury is manager of the property.

### BALLARD MINE IS TO BE DEVELOPED

Through a recent deal Roy H. Shettle of Jackson sold the Ballard mine to Los Angeles mining interests, from J. Ratto of Sutter Creek. Conciderable development work has been done on this property. Surface equipment was installed during the time Lopez and associates operated the mine.

The new owners are unwatering the 200 foot two compartment shaft. They plan to drift on the hanging wall or Spanish vein and cross cutting to the main footwall. They will also sink an additional 200 feet in the main shaft. H. A. Derrer, mining engineer is in charge.

## An Obnoxious Weed

## FIRE AT BIRCHVILLE WAS A FIERCE ONE

Birchville, July 7th, 1931, (Special to The Nugget) — At about eleven o'clock Monday morning the little town of Birchville awakened to find itself in the path of one of the hottest and fiercly burning fires ever to hit the San Juan ridge in many years. The fire when first noticed was burning in the old Skeahan place, which was formerly occupied by Mr. Will Clerkin and sister, Miss Millie Clerkin.

The wind was blowing in an easterly direction and as the Skehan field below the house, was covered by tall dry grass, it didn't take long for the fire to cross this field, jump across the old Cherokee road, and then to the big hill, above the Skeahan Ranch. A large brushy and grass covered hill, which made a nice furnace for a fire, was soon covered with flames, which rapidly spread and soon were right in the heart of Birchville.

The school house, which for many years has been the foundation for the education of many young men and women of that little town, was totally destroyed. It was however, covered by $1000. insurance which will assist partly in rebuilding the building.

Then the old Sneath Ranch recently sold to a Mr. May of Sacramento and who had just finished putting up a small house and tent was completely destroyed. The fire worked on both sides of the road. The old Thomas Fogarty Ranch and all the buildings were burned. Also the old Kyle, Doyle and Newall places were burned.

The Thomas Hull residence had a very narrow escape, as did the old Maroney house, now occupied by Mrs. Williams. At the Hall residence the barn and wood shed were destroyed.

A large crew of willing and hard working men from the Ridge and Nevada City, and a favorable wind, for a back fire, and some real good luck thrown in, were all that saved the rest of Birchville, and even safe to say Sweetland, and possibly North San Juan.

At the lowest estimate there were at least 75 men on this fire.

## KIRBY THOMAS MINE ENGINEER IS DEAD

Word has been received in Nevada City of the death in Quebec, Canada, on June 22nd, 1931, of Kirby Thomas, internationally known mining engineer and mine journalist. Thomas was fatally stricken while inspecting a mining property near Amoa, Quebec.

Kirby Thomas had been a frequent visitor in this section during recent years, having inspected several mines in this district for eastern capitalists.

He was a subscriber to the Nevada City Nugget for some time. His reports on mines are quoted as among the most reliable engineers. and he had the name of being able to raise large sums of money for mine development and purchasing of mines.

## FRENCH BROS CLEANERS OPEN BRANCH SHOP

French Bros. Cleaners, are opening a branch shop in the Ben Bost building on lower Broad Street.

Mr. Jeffrey, who sold out to French Brothers in Grass Valley, will have charge of the business in this district. He is not a stranger as he has been in the business for two years.

The new owners plan to carry on the business along the same lines as Mr. Jeffrey has conducted it.

This is one of the new business houses opening in our town and is welcomed cordially into our midst.

### SHORTAGE OF HOUSES IN TOWN OF GOODYEARS BAR

There is a shortage of houses in Goodyears Bar at the present time and several have had to move to Downieville to find accomodations. The Brockles Hotel has a road crew of 22 men rooming and boarding there. There is a plan on foot to put up tents to accomodate a crew of surveyors that are coming in the near future.

## MOVING PICTURES TAKEN OF MINING PROPERTY

A Gordon Nicilson, President of the Nevada County Mines Corporation ,which was recently orzanized to take over and operate the Bellefontaine Mine on Deer Creek, as one of the J. M. Hoff operating units in this district, has spent several days in the city and at the mine, as well as visiting some of the other work including the St. Louis mill, which s practcally ready for operation just across the creek and above the Bellefontaine.

Several hundred feet of moving pictures were taken by Mr. Nicolson up and down Deer Creek and on the several Hoff properties. Underground operations were also filmed by Mr. Nicolson and all together a very fair run of properties and operations are shown on this footage.

Work on the water line for the St. Louis mill is rapidly completing and ore will be milled from the Constitution, the Bellefontaine and the Cyane. Mr. Ed Uren, has been retained to do sampling work in the properties and facilitate the operations of the engineers in opening up these several mines.

Last week Mr. Lloyd Root, former State Minerologist, visited the properties and was enthusiastic over what is being done.

Mr. Nicolson returns to San Francisci this week end on business of the company.

## FOURTH GOLD MINE AWARD DECISION TUES

Holder of the first 10 numbers drawn at the 4th of July celebration ticket sale have had an opportunity to register their tickets at three day intervals. 1295 was the first number drawn and it had to be presented Tuesday to hold the mine. The second number was held by Mrs. Mary Kenny, 2585 Ocean View, Oakland.

The following numbers are 604, 1468, and 1380. The last number is held by W. S. Wheeler, 1175 Spruce Street, Berkeley.

It is to be hoped that the party that draws this mining claim will proceed to do as the lady who drew the claim two years ago. She is not only doing her assessment work, but came to The Nugget office and purchased filing locations for two or three claims adjoining the first one which is located in the You Bet Mining District.

## TWIN CITIES DANCE PAVILION DRAWS CROWD

The Twin Cities Dance Pavilion had a big night on July 3rd ,or their opening night. It was reported that there were 600 couples on the floor at one time besides many spectators.

The parking space was filled and cars were parked on each side of the highway for quite a distance each way.

The dance music was enjoyed and many words ofpraise were heard on the lighting effects over the dance floor.

## MINING PERSONALS

Robert Locke, mining man from near Gold Lake spent the week end in Nevada City.

Chas. Avery, D. Reed, A. W. McArthur, W. Briscoe of the Eagle Bird mine spent the 4th in Nevada City.

Lloyd Root, former state minerologist, was in Nevada City recently looking over some mining properties.

Wm. Lichtenberg, mining man of Alleghany, spent the week end in Nevada City.

R. O. Foster, superintendent of the Twin Sisters mine, spent the 4th of July in Nevada City.

Mr. Erway, mine owner, was in Nevada City Thursday and stated that assessment work had been completed with greater interest than in many years in the North Columbia district. Quite a lot of development work has also been carried on in different properties.

## FRENCH CORRAL ITEMS

FRENCH CORRAL, July 9, 1931. (Special to The Nugget) —After a day of terrible anriety caused by fires, we will endeavor to write a few "items".

The hot wave seemed to have struck this section the past week and sent the mercury up over the 100° mark. The 4th of July was spent quietly in this section, but the distant booming of cannon let us know that something was doing at our "Twin Cities."

Too bad that happy 4th should be followed by such a catastrophe as our little sister town of Birchville suffered today. What is left of it is well guarded tonight, but shortage of help at the right time caused the little town to be nearly wiped out of existence.

Smoke was first noticed arising in the Clerkin (Tackitt) ranch, and later the alarm was given that fire was coming up over the hill back of the H. Thomas place. Help was summoned quickly as possible and the fire spread so rapidly that the men had a hard fight to save the Thomas house and big barn, and guard the Catholic church. Most of the help that arrived from a distance then turned their attention to fighting the fire hat was rushing up through the timber, and the few who were left were almost helpless when in some unexpected way the fire jumped the road and a spark set a chicken house back of the Davis place on fire and from that it got into the tall pines and set the schoolhouse on fire. Later the old Doyle place caught and it spread to the May place (Kinney) across from the church, then down to the old Everett place and across to the Hall and Fogarty places. The Thos. Hall barn and all out buildings were all burned, but they succeeded in saving the house. The Fogarty (old home place) was burned to the ground and help arrived in time to save the Maroney place, but it was by a pretty hard fight ever then. The O'Connor family took what they could of their belongings to a place of safety, or what might be safe, for they had no hope that their house could be saved when fire menaced the Maroney house. The wind carried the fire along so rapidly that it seemed almost a miracle to have saved anything .So the school house, Doyle place, Everett, May Fogarty and Hall barn and other out buildings are only a pile of ashes tonight.

It seems that steps should be taken to have some sort of organized fire protection for the San Juan Ridge. With the shortage of water and but few men at home and our fire service occupied with so many other fires at times, the situation is simply appalling.

Terrible things seem to have come to us since last writing. The suicide of Chris Bertheau last Wednesday cast a gloom over our little community. He was a quiet unobtrusive old gentleman and his kindly manner made friends of all who knew him. He seemed to be despondent over something and took his life by placing the muzzle of the gun in his mouth, and exploding it. The result was too horrible to write about. As yet nothing has been learned of his family.

Sheriff George Carter and Coroner A. Holmes made a trip to French Corral Wednesday to take charge of the remains of Chris Bertheau, who met his death by suicide.

W. P. Clerkin was a visitor Thursday.

Mr. and Mrs. Theodore Wetzel and son, Parker, of San Francisco were visitors over the 4th of July with the family of Mrs. Wetzel's brother, W. E. Moulton.

Mr. and Mrs. Ray Smith and children of San Francisco visited Mrs. Smith's aunt, Mrs. W. E. Moulton, July 4th.

John Schreves of Browns Valley who lived on the Ridge some years ago is spending some time here again.

F. S. Woods of Sweetland and Mr. and Mrs. Brady of Oakland were Monday visitors.

—0—

## PLEASE TO MEET YOU, PUPPET!

In both Red Riding Hood and the Wolf and Cinderella, the puppet plays to be given July 10th, in Redmen's Park for the benefit of the Epworth League, there are many funny characters. These puppets run true to type—for to most people, puppet means a Punch and Judy show, and indeed puppet always have a comic element.

They have their serious side also. In the Middle Ages, they were used to teach religious lessons to the illiterate.

In the show which the Epworth League is bringing to Nevada City, there is much delicious charm and dramatic thrill as well ah comedy.

The puppeteers are Miss Mary Hewes of San Francisco and Miss Joyce Lobner and Otis Cobb of Oakland. They have been associated for some time and are bringing puppets which they designed and a special puppet stage with its own lighting system. These three operators will take all the parts and create allthe effects which will entertain the audiences attending the matinees and evening performances.

—0—

## LOCAL HAPPENINGS

Miss Millie Clerkin of Pike City visited friends in Nevada City Monday.

Ellesworth Colley, who is an orchardist near Tudor, spent the 4th in Nevala City with his father.

Assemblyman and Mrs. Jerrold L Seawell of Roseville spent the week end at The National Hotel in Nevada City. They attended the celebration of the 4th in Grass Valley.

Ralph and Don Gleason cafe down from Hobart Mills to spend last week end at home with relatives.

Mr. Johnnie Glennan of Gibbonsville, Idaho, brought some ore into The Nugget office from his home town. One was from the Big Four mine of base ore, while the other was from the Moonlight mine and was free milling gold ore. The base ore looks very similar to the ore of our local mines in Nevada county.

Mr. and Mrs. Bradley Legg of Berkeley spent the week end in Nevada City with relatives.

Mrs. Arthur Dolan and two daughtrs are spending their vacation with her brother-in-law and wife, rMr. and Mrs. James Dolan.

Mrs. Julia Smith of Stockton visited at the home of her brother, Robert Allen, over the 4th of July.

Mr. and Mrs. Charles Bourvier of Gold Flat had as guests Mr. and Mrs. Chapman of Sacramento.

Miss Iris Murchie will spend her summer vacation visiting scenes in Alaska.

Miss Helen Searls returned to San Francisco after a short visit here with her mother, Mrs. Fred Searls.

Mrs. Ben Preston had as guests over the 4th Mr. and rMs. Harry Preston of Oakland.

George oHcking who is employed at the Steep Hollow mine, spent the 4th in Nevada City.

Mr. Harold Lambert and Mr. Dan Corey of Oroville are here visiting Charles Corey. They are father and brother-in-law respectively of Charles Corey, of Leiter's Radio Shop. They are pleased with Nevada City and will remain fora couple of days visit.

### "THE VOICE WITH THE SMILE" SETS GOOD EXAMPLE

In an editorial in a recent issue of the American Independent Baker entitled "Wanted: More Smiles in Business," reference is made to the Bell System's slogan, "The Voice With The Smile." This doctrine, declares the editorial, needs more emphasis today than ever before, because American business has lost its smile.

## You and I

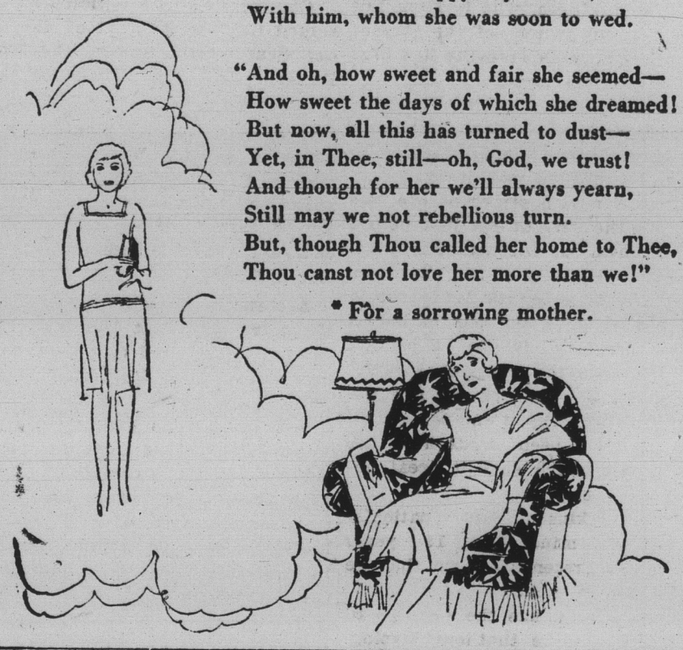

by CHARLES S. KINNISON

### *WHY?

"Forgive me, Lord, for asking why—
But oh, why did she have to die—
Why was it, Lord, she had to go?
For oh, we loved her—loved her so!
Just in the flower of girlish charm,
With love and laughter at her arm—
With dreams of happy days ahead,
With him, whom she was soon to wed.

"And oh, how sweet and fair she seemed—
How sweet the days of which she dreamed!
But now, all this has turned to dust—
Yet, in Thee, still—oh, God, we trust!
And though for her we'll always yearn,
Still may we not rebellious turn.
But, though Thou called her home to Thee,
Thou canst not love her more than we!"

* For a sorrowing mother.

## CAMPTONVILLE ITEMS

CAMPTONVILLE, July 8,—The community mourned Saturday morning while simple, impressive services were held for Geraldine Lola Cleveland at the home of her parents, Mr. and Mrs. Actin M. Cleveland, on Main Street. The school bell, which the little girl had learned to love, called her for the last time as it tolled as the little white casket was carried by loving hands to the Masonic cemetery only a few steps from the home. Large numbers of beautiful floral offerings carried forth the sympathy of her many loving friends.

Services were conducted by the Rev. H. H. uBckner, pastor of the Methodist Episcopal church at Nevada City and of the Camptonville Union Sunday School. Sacred music was rendered by Mrs. Jack A. Wolff of Grass Valley. Two cousins, John F. Lord, of Sacramento, and Dan L. Sharp f Marysville, and two uncles, Fred J. Joubert and Joseph Lavezzola acted as pall bearers. Funeral arrangements were in charge of the Litfle Church Funeral Home of Nevada City.

Emerson Kendall of San Francisco, a former resident, spent a few days here last week visiting his old home.

Mr. and Mrs. Earl L. Cleveland, and John F. Lird, of Sacramento, and Mrs. Virginia M. Lord of Decito, arrived Friday to attend the funeral if the late Geraldine Cleveland.

C.N. Chatfield, superintendent of the Mt. Alta mine, passed through town Monday from Downieville enroute to his home at Pike.

County Surveyor Jason R. Meek and son, Jason R. Meek, Jr., and grandson William C. Meek, and Dan L. Sharp of Marysville, were here Saturday to attend the funeral of the late Geraldine Cleveland.

District Attorney J. M. McMahon and wife of Downieville were in town Sunday on a short visit.

Julius E. Pauly and son, Myron, and Hubert Long motored to Mohawk Friday where the boys will remain for a vacation.

Mr. and Mrs. John S. Langdon of Nevada City, were in town Saturday to attend the funeral of their great grandaughter, Geraldine Cleveland.

Ed Hanson returned Monday from a short business trip to Reno and vicinity.

Mrs. Mae Carelock and daughter, ofOakland, were in town Saturday attending the funeral of the late Geraldine Cleveland.

A.H. Bolton ofMarysville passed through town from Gold Lake enroute to his home.

Henry W. Huckins of North San Juan was in town Saturday attending the funeral of her grand daughter Geraldine Cleveland.

Alvin Kennady returned to his home at Oroville Monday after spending the fourth of July at his old home here.

James M. King of Nevada City was in this section over the fourth on a visit.

W. R. Jefford if Grass Valley and Roland Foote of Nevada City, funeral directors, were in town Saturday conducting the funeral of the late Geraldine Cleveland.

Rev. H.H. Buckner of Nevada City was in town Saturday conducting the funeral of the late Geraldine Cleveland.

Bernard Ratkjen of Pike City was in tiwn Monday on a short visit.

Mr. and Mrs. Joseph Lavezzola of Downieville were in town Saturday to attend the funeral of the late Geraldine Cleveland.

Tom Bessler of Nevada City was in town Tuesday on a short visit.

Miss Rieta Huckins of Yuba City was in town Saturday attending the funeral of the late Geraldine Cleveland.

Mr. and Mrs. Ruben Halkyard and family of San Francisco arrived Saturday to spenl their vacation at their old home here.

Mr. and Mrs. Edwin G. King if McCloud were here Thursday on a visit to their old home.

A number of men were called to Birchville Monday to fight the fire which partially destroyed that place.

W. A. Stansberry motored to Nevada City Saturday.

Mrs. Anna F. Grove, former resident, and Miss Lynch of San Francisco arrived a few days ago on a two weeks' vacation.

Mrs. Elsie Williughby, Editor of te Nevada City Nugget, was in town Tuesday on a short visit.

Chas. H. Green of Grass Valley was in town Monday.

John H. Lance and family of Sacramento spent the week end visiting here.

Mrs. S. R. Curtis of Wynne, Arkansas, who spent the past week visiting her old schoolmate, Mrs. Kate Hope Livingston left a few days ago.

E.Z. Bowen and Chas C. Donnelly of Oaklandp assed through a few days ago enroue to the True Grit Mine above town.

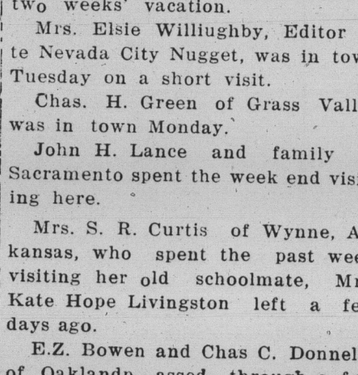

James Southerland of Goodyears Bar passer thru town Tuesday from Nevada Cit yenroute to his home.

Mr. and Mrs. Julius E. Pauly motored to Marysville Wednesday.

# PHILADELPHIA CO. TO OPEN PARAGON MINE

Sonora, Calif. July 10—The Tonopah Belmont Development Company, with offices in Philadelphia, Pa., owner of the Belmont mine at Tonopah, Nevada, famous silver-gold producer for the last 25 years, is to immediately become a factor in Tuolumne County gold mining. Word has been received here that President Clyde S. Heller, one of th outstanding mine operators of the West, has signed lease and bond papers whereby the company has acquired from B. A. Whittaker and George Connally, both of Tuolumne, the Paragon mine located on the north fork of the Tuolumne River, ten miles southeast of that town.

The deal was arranged by Roy King, a member of the engineering staff of the company, after a long period of examination and study of the property. Mr. King, who was manager of the company's Tonopah property for many years will supervise operations at the Paragon mine which are to be inaugurated within the next ten days. Two shoots of ore, both in the same vein but at widely separated points, have been opened up on the property embracing 140 acres. A drift tunnel, more than 100 feet in length, is following an orebody averaging in width three and a half feet and in value $30 a ton in gold. In a drift from a crosscut tunnel, 600 feet distant, three and a half feet f ore yields $11 a tin, it is stated.

The Providence mine ,on the north fork of the Tuolumne River, three miles east of Tuolumne, has recently reentered the list of gold mines on the Mother Lode, after being idle for nearly 20 years. It has been taken over under lease and bond from John Chapman of Stockton by G. A. Collins and associates of Oakland and its operation resumed. The new operators are continuing an old 750-foot crosscut tunnel in the Consuella section of the property to tap a new known orebody. The mine has a 1,520-foot two compartment shaft on a vein vearying in width from six to 22 feet .Tributary workings extended on the various levels from 1901 to 1912, when the mine was owned and operated by E. A. Wiltse of San Francisco, yielded ore averaging $18 a ton to a total of $3,000,000, it is stated.

Jacob Lorang of Oakdale, Calif., has taken over from Wallace Draper of Columbia under lease and bond the Hiapo property, two and a half miles northeast of the latter town. He has put a force of miners to work in the extension of a drift tunnel on a body of ore yielding promising pannings.

**ADVERTISING BUILDS BUSINESS**

Most businesses throughout the country found 1930 a year of depression. But K. L. Hamman, president of a large West Coast firm of advertising counselors, can give you a list of 152 national organizations that did a bigger business last year than ever before.

Every one of those organizations increased the advertising budget for 1930 over that of 1929.

After the close f the World War when war workers were being released from their jobs and 3,000,000 soldiers were returning to peace-time employment, there was a great deal of apprehension in the business community. Roegr W. Babson, at that time a government official, pointed out the way to safety and security, and so long as his organization functioned in the government reorganization busines was not disturbed.

His prescription was advertising—advertising on a greater scale than ever before. His advice was sound, and government stimulation of advertising probably saved the country a serious crisis at that time.

# LOS ANGELES MEN BOND MINE IN WASHINGTON

San Andreas, Calif. July 17—The Washington mine, on Indian Creek, six miles north of Murphys, idle since 1925, has been taken over under lease and bond from Maude E. Gerry of Angels Camp and Walter Osselin of Sheep Ranch by H. E. Wollrich of Los Angeles. Development of the property, which has an early production record of $600,000 is to be resumed in the immediate future, it is stated. In past operations the property was developed to a depth of 1,000 feet by a 600-foot two-compartment vertical shaft and fro mthat horizon by a 400-foot vertical winze. The main vein varies in width from five to 25 feet. The bottom of the winze assays $26 a ton in gold, it is stated. The property is equipped with a ten-stamp mill and concentrating plant.

A two-stamp mill and concentrating unit are being installed at the Black Oak mine, located two and a half miles northwest of Angels Camp and owned by Robert Walsh of that town. The shaft on the property has recently been sunk from the 60 to the 120-foot point. On the 60-foot level a three and a half foot orebody yields assays of from $5 to $13 a ton in gold, it is stated. On the 100-foot level a like showing prevails.

No smoky chimneys ...thanks to Gas Fuel

GAS helps keep your city clean because there is no smoke or dust when you burn it.

As a result, the health-giving rays of sunlight shine down without obstruction. The air you breathe is pure. Your home, both inside and outside, stays clean longer. Trees, flowers, and grass stay clean, too.

Gas is delivered to you clean and burns clean. It is a care-free fuel to use. You have instant heat when you want it and there's no cleaning up to do after using it.

If you are proud of your city, help keep it clean by using Gas for cooking, water heating, and house heating.

The local dealers or the P. G. and E. will demonstrate the modern Gas appliances.

## MINING METHODS AND COSTS AT METAL MINES

Mining methods and costs in the metal mines of this country are discussed in Information Circular 6503 United States Bureau of Mines, Department of Commerce. In this circular, Charles Will Wright has summarized certain of the pertinent data growing out of a study of mining methods and costs undertaken some three years ago and continued up to the present writing. This preceeds a more detailed and intensive study of the mining problems presented in the series of papers here summarized.

Only about 400 of the metal mines in the United States produced a value of more than $100,000 each in 1929, and it is with these mines that the paper deals.

The mining methods in use at these mines have been classified, briefly described and discussed with reference to their applicability to various conditions, types of ore bodies and character of mineralization. The different methods of mining are illustrated to show typical practice and principal variations therefrom. The inherent advantages of each method are briefly summarized and the factors to be considered when selecting a mining method for a given ore deposit are discussed

Of particular interest from the economic standpoint are the tabulations of data showing: Tonnages produced as classified according to mining method; average results of each mining method, classified according to metallic mineral mined in units of labor per ton of ore mined; dollar costs for different mining methods and costs for each method in units of labor, power, explosives, timber and other supplies.

A table present summarized accident data over 400 mines for the year, 1929, by mining methods, a form in which these data have never before been presented.

In the closing paragrahps, Mr. Wright has briefly discussed recent progress in mining practice anu pointed out the present tendency toward improvements.

Finally a bibliography is given in which are listed, according to principal stoping methods, Bureau of Mines Information Circulars dealing with mining practice.

Copies of Information Circular 6503 may be obtained from the United States Bureau of Mines, Department of Commerce, Washington, D. C.

## VARIETY OF COUNTRY SHOWN IN CALIFORNIA

Nature has been kind to California in the shaping of her topography, providing the greatest variety of country to be found anywhere.

Her mightiest work has been done in Northeastern California in the area within the boundaries of Lassen Volcanic National Park. Here with great strokes she has shaped volcanoes, lava fields, lakes, streams, waterfalls, spouting geysers and steam vents, boiling lakes and virgin frests.

Incorporated as a national park in 1916, development of the area has been slow. But now, after spending millions, the federal government has brought the park to a stage where it is ready to receive the tourist hordes .The Scenic Loop Highway, running from one end of the park to the other past many of the phenomena and 8,500 feet up on the side of Lassen Peak volcano, is completed. Other features are being made available.

The park is now in the position of the new product that needs a sales organization to "put it over" with the public.

The groundwork organization is already in the field in the shape of the California State Chamber of Commerce, local civic agencies and tourist groups. What is needed is a large army of salesmen composed of the people of Northern California.

There should take place in the civic conscience of the citizens of this and every other community of California the determination to advance the interests of Lassen Park in every way possible and to support the mammoth dedication planned for July 24th, 25th and 26th.

The dedication will be the biggest single thing to bring to the attention of the world the wonders of the park, which, when known, will start the tourist dollars rolling into Northern California in an unprecedented stream.

It is ne of the biggest events in California's year f fiestas and celebrations.

0

## WORK PROGRESSING AT CENTRAL EUREKA

Sutter Creek, Calif. July 10—The Central Eureka Mining Company ,operating in this town, has completed the extension of a 1,550 foot drift connecting the 2,540-foot level of its main or Central Eureka shaft with the 2,300-foot level of its Old Eureka shaft. The work was done by contract labor and accomplished two months in advance of the date originally estimated. It was extended through solid greenstone about midway between the main or East vein and the West vein, the principal segments of the Mother Lode, situated about 70 feet apart. After cutting of a huge chamber as a sump or rersevoir for handling mine water from deeper levels, the new working will be used in the extension of horizontal diamond drills to prospect the two ledges between the two shafts. Current normal production of ore continues to be yielded by the 2,000, 2,100 and 2,300-foot levels' north drifts and stopes in the Old Eureka territory.

Using a baler and operating under a sub-lease on the norther half of the 160-acre property, Franklin and Company, Los Angeles mining operators, have started dewatering the 220-foot vertical shaft on the Ballard mine, four miles north of Plymouth, under the supervision of H. A. Derrer. The property is equipped with a full complement of mining and milling machinery, including a ten-stamp plant.

The Vena Madre Metals Corporation, Los Angeles concern, has installed a 100-gallon per minute electric sinking pump at the South Jackson mine, about a mile south of Jackson, and started dewatering the 577-foot vertical shaft preliminary to the resumption of development work.

## FOREST HILL DIVIDE SHOWS MINING ACTIVITY

It is reported that the Glenn mine was sold to San Francisco capitalists for $100,000. It is famous for coarse gold and nuggets. In 1928 a 1000 foot tunnel was driven into a channel, and the mine has been in operating ever since. It is in the famous Duncan canyon six miles east of Last Chance.

San Francisco capital has employed George Duffy, a mining engineer in the Mayflower and Baltimore mines. This is a gravel mine and 15 men have been employed for several month at the property.

The Pioneer mine a few miles above Forest Hill is being given preliminary work by Engineer Frank Moss of Placer County. A good quartz vein has been uncovered.

The Snow Bird quartz mine has been bonded to Supervisor Matt Langstaff and Martin Costello. It is situated between Forest Hill and Iowa Hill. Costello is an engineer and has charge. It is thought that this property has great possibilities.

Several rich strikes hase been made in the Iowa Hill District and it is said large sums of money are being invested.

Thirty four mine location notices were filed in Placer County by the County Recorder.

The Paramount Gold Mining Corporation has made a rich strike in the Ophir District, it is reported.

W. R. Reed owner of the Gold Blossom mine in the Ophir District which has produced $750,000 has had several offers to dispose ofthe property.

## SAN FRANCISCO COMPANY PURCHASES RYMAL MINE

San Francisco, July 17 —The Smuggler Mining Company, which has been attracting attention on the San Francisco Mining Exchange recently, has taken over the Rymal mine in El Dorado County 14 miles north of Placerville, according to announcement made by C. N. Miller, president of the company.

The mine was acquired upon the recommendation of Bob Montgomery, discoverer of the famous Montgomery-Shoshone mine in Nevada, who has been retained by the Smuggler Company as managing director. Montgomery spent several months in searching the California Mother Lode for a promising property.

The Rymal mine has been developed by a 300 foot crosscut tunnel which has exposed a typical Mother Lode vein of substantial proportions A test of 21 tons of ore showed millheads of $8.60 a ton in gold and tailings of $1.19. Montgomery said that the face of one of the drifts shows a width of 6 feet of ore that averaged $11 to $12 a ton.

A large compressor, together with machine drills and electric power, will be installed by the Smuggler company in preparation for extensive development work.

The Rymal mine is close to the famous Taylor mine which has a record of having produced $7,000,000 to a depth of only 700 feet.—Placerville Republican.

## CALASKA MINING CO TO OPEN BOYTANO MINE

Jamestown, Calif., July 17—Operating under a lease and bond from J. R. Boytano, the Calaska Gold Mining Company, controlled by Fred Lautenschlager and associates, is meeting with success in the development of the Boytano mine, 30 miles southwest of Jamestown . A force of 10 men is being employed. On the 200-foot level a north drift recently started is exposing six feet of $20 a ton gold ore. A like orebody is being developed in the sinking of a shaft, now down 200 feet. Ore extracted is being reduced in a ten-stamp mill on the property and is plating $16 a ton, it is said.

BUILDERS OF CALIFORNIA

The Cow "that goes to School"

9 of the 10 largest dairy products companies in California are depositors in Bank of America

EXCITEMENT RUNS HIGH as a sleek cow and calf arrive at the school yard.

With this traveling exhibit and a lecturer, California Dairy Council gives many city children their first "close-up" of real dairy animals—and an unforgettable lesson in the health value of milk.

More than 350,000 children in this state receive milk at school. Yet this consumption is but a fraction of the total. Annual sales of California dairy products exceed *150 million dollars!*

This great industry uses Bank of America's service on a continuous, statewide scale. No less than 12,000 milk producers, as well as some 300 manufacturers and distributors of dairy products, are depositors in this Bank.

Commercial funds and workers' savings—deposited in many Bank of America branches—are transformed into sound commercial credit that assists dairymen and all branches of the industry.

Among other services, the Bank collects payment for domestic and export shipments of butter, cheese and condensed and powdered milk—and transfers funds to or from any market in the world.

Bank of America's co-operation with such basic industries assures *protective, statewide distribution* of the Bank's resources. Does not this policy appeal to you?

## MINE NOTES FROM MOUNTAIN MESSENGER

Many snipers are panning and sluicing for gold in the streams and rivers in Sierra County. Low water and unfavorable labor conditions have brought this about. A number of these miners are on Big Canyon Creek and along the Yuba river above Downieville. Some of these men are making from a mere living wage to $6 and$60 a day, according to the location. Long toms are being used on the Yuba where there is sufficient gravel.

Antone Lavezzola of Downieville has sold the Shamrock group of 22 quartz claims to Visalia people. They plan to start operations within a short time.

A report has come in that the Commodore mine south of Hennass Pass road was taken over by Nevada mining men. This mine is owned by Mrs. Richard Phelan, who makes her home in Nevada City. This is a drift property which holds good promise.

Ben and Will Atkinson of Scales have leased the Poverty Hill mine which is owned by the Judson Estate. 12 men are employed cleaning ditches, building flumes, a cyphon constructed and pipe lines installed. It is located on the old Port Wine-Scales channel. Anti-debris laws stopped piping. An old pit will be used for storing debris. Water will be taken from the ditch leading to Lover's Lane.

### ASSISTANT TO J. C. PENNY MAKES INTERESTING TALK

The following was a talk by A. W. Hughes, Assistant to the President, J. C. Penney Company, at the Institute of Public Affairs, University of Virginia.

The past ten to twelve years have witnessed sweeping and significant changes in the entire organization of our natonal facilities for moving manufactured prducts from their source to the ultimate consumer.

Readjustments have become necessary and all the processes of retailing from the purchase of the retail commodities to their ultimate sale over the counter have changed.

Under old conditions, the manufacturer made up his samples and showed them to the wholesaler or jobber. The wholesaler placed his order, and the work of the manufacturer, so far as selling was concerned, was completed.

Under that process of selling, the manufacturer did not feel the urge to change the styles in order to develop new buying interest on the part of the general public.

With the growth of the country and with the financial rewards which were promised by the success of established jobbing houses, came a period of rapid growth in the number of wholesalers.

Jobber salesmen forthe equivalent lines were engaged in hot comptition all over the country. The hotel sample room became the buying center of the country.

The start of Trade-Mark advertising forced a new condition upon the jobber who heretofore, had sold under his own label.

As fanufacturers, carrying on their own advertising and selling campaigns, began to feel a return in increased vloume from this new and up-to-date almost untried selling effort, they sensed that the market would respond with gradually increasing interest to even minor changes in design and material.

The retailer found that he could keep his counters busy if he would keep his merchandise fresh, new, and in good style.

The jobbr found that he could not continue to build his lines a year ahead and successfully go on in the old manner.

Out of the attempt of the jobber to meet the new conditions in distribution and merchandising, brot about by significant changes in all forms of living, have come to many new forms of distribution.

Manufacturers, adopting national advertising as a means of creating more active distribution set up their own distributing organization and sold directly to te retailer. By this method they have secured preferred distribution for their products and have, in general, eliminated certain intermediate expenses between their factory and the retail counter.

### ELECTRICAL WIRING

L. B. Gregory will do all kinds of electrical wiring and all kinds of ignition work. He is well known here for his high class work.

Anyone wishing his services may call the Miners Foundry, Phone 10.

## EL DORADO MINE NEWS

The Incinell mine, near Omo ranch, owned by the Ball family, has been sold to H. H. Knoll of Los Angeles. It had been supposed that the old mine was worked out but reports state Mr. Knoll has found encouraging evidence and hopes to continue work on a larger scale.

The C. Edner property, in the Omo section, is reported to have recently been bonded to some Weedland people, who are sinking a two-compartment shaft to connect up with an incline tunnel which is now being driven.

### STATE GASOLINE TAX HELPS TO CUT COUNTY TAX RATE

Nevada County's gas tax share was $10,045 for the half year ending March 31, 1931.

Total apropriations were $5,707,120.39, State Controller Ray L. Riley estimated.

One third of $17,121,361.16 goes to counties apportionment on basis of motr vehicle registrations and two-thirds to the state highway division fund for road work.

### Leaders of Tomorrow Among Boys of Today

He is a person who is going to carry on what you have started. He is to sit right where you are sitting and—when you are gone—attend to those things you now think are so important.

You may adopt all the policies you please, but how they will be carried out depends upon him. Even if you make leagues and treaties, he will have to manage them. He will assume control of your cities, states and nation.

He is going to move in and take over your churches, schools, universities and commercial undertakings. All your work is going to be judged and passed on or condemned by him. Your reputation and your future are in his hands.

All your work is for him, says Boys Club magazine, and the fate of the nation and humanity is in his hands. So it might be as well to pay him some attention.

### Dog Made Small Town Famous

Karasjok is a small town in northern Norway, above the sixty-ninth meridian in the center of the region known as Lapland. It lies a few miles west of the confluence of the Karasjok and Tana rivers, the latter forming the boundary between Norway and Finland.

The town's population is made up mostly of Laplanders and is the home of the Balto family, made famous by an Alaskan malamute, named in honor of one of the members of the family. Balto was the lead dog of Gunnar Kasson's famous team that carried diphtheria serum on the last 60-mile lap in the 600-mile sledge race from Nenana to Nome during the epidemic of February, 1925.

### Music Helps Efficiency

As far back as 1886 the head of a southern factory, where cigarettes were rolled by hand, placed good singers in his workrooms to increase efficiency and contentment in the plant. There are today several hundred American industrial organizations that encourage musical activities among their employees. A survey conducted by the National Association for the Advancement of Music reports that 32 companies allow the musical programs to be conducted on company time, while 132 allow them to be conducted half on company time. Experiments prove that under the influence of music more work is done and fewer mistakes are made.

### Put the Safe First

A man called on his stock broker and found him grumbling about lack of business and recent financial complications in the city.

He was about to leave his office for the day. As they were going out, the caller noticed that the door of the safe—a large, majestic piece of furniture—was open.

"Surely," said he, "you lock your safe for the night, don't you?"

"As a rule, yes," replied the broker, "but as things are at present, I would much rather that any one should take the contents than break the safe!"—St. John Telegraph Journal.

### A Balfour Anecdote

An amusing anecdote is recalled about Lord Balfour and Lady Oxford concerning her rather sensational "Autobiography of Margot Asquith."

In it she speaks of him in a not too kind manner.

Meeting him shortly after its publication, she said, "I do hope you will forgive me for what I said about you in my book." Lord Balfour answered, "What book? I did not know you had written one."—Weekly Scotsman.

### Whiskers

A large branch fell from a tree in the front yard of two-year-old Don.

"Whazzat?" said he, pointing to the twigs on the limb.

"Why, it's the tree's whiskers," answered his sister, with all the wisdom of her five years.

### Facts About the Telephone

A telephone line has been opened between Russia and Sweden via Finland.

The number of American Telephone and Telegraph Company stockholders is now over 590,000.

Nearly 60 new long distance telephone circuits were in service in the State of Georgia during the year 1930. Atlanta was the terminating point for 40 of these new circuits.

More than 280 telephone circuits now connect New Orleans directly with nearly every important city in the country. Thirteen of these circuits link with Baton Rouge. Next in order, on the basis of the number of circuits, come Dallas, Chicago, Houston, New York, Atlanta, St. Louis, Birmingham, Mobile and Memphis.

### LEGAL NOTICE

No. 5912
NOTICE OF SHERIFF'S SALE OF REAL ESTATE, UNDER EXECUTION

IN THE.. SUPERIOR.. COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.

JAMES BRADY, Plaintiff
vs.
M. IVAN DOW AND E. L. DOW, Jr., Defendants.

By virtu of an Execution issued out of the Superior Court of the State of California, in and for the County of Nevada, wherein James Brady is Plaintiff and M. Ivan Dow and E. L. Dow Jr., are Defendants. Upon a Judgment rendered on the 6th day of July, 1931, for the sum of Four Hundred Thirty-eight ($438.00), with interest thereon at the rate of 7 per cent per annum, till paid from the date of said Judgment, together with Twelve ($12.00) costs and disbursements at the date of said Judgment, and Clerks accruing costs of One Dollar ($1.00).

I have this day levied upon all right, title, estate and interest of M. Ivan Dow and E. L. Dow Jr., defendants, as aforesaid, in and to the following described real property to wit;

All those certain consolidated quartz and placer mining claims, being portions of Section Seventeen (17) and Twenty (20) Township Sixteen (16) North, Range (9) East, M. D. M., bounded and particularly described as follows; Commencing at the section corner common to Sections 16, 17, 20 and 21 of said Township, thence running South 88½° West following section line between said Sections 17 and 20, 16.81 chains thence North 55½° West 28.80 chains to post M. H. R. 12; thence South 64½° West 8.20 chains to post M. H. R. 14; thence North 74° West 4.86 chains to post M.H. R. 15; thence North 56½° West 4.49 chains to post M. H. R. 16; thence North 48° West 6.00 chains to post M. H. R. 17; thence South 49° 4.90 chains to post M. H. R. 1; thence south 11½° East 3 chains to postM. H. R. 2; thence South 13° West 8.16 chains to Post M. H. R. 3; thence South 9¾° W. 4.20 chains more or less to point 25 feet North of the croppings of Nolan's Nevada Ledge; thence North 70¾° East at 9.60 chains Post M. H. R. and B. C. 3, 12.02 chains to point on East side line of Nevada Q. M., South 23° East 0.73 chains to East Lode Post of Nevada Quartz M; thence South 15° 38' East 2.24 chain to North side line of Big Blue Q. M., thence South 68° West 5.82 chains to N. W. corner of Big Blue Q. M.; thence South 22° East 0.76 chains to S. W. Corner of Big Blue Q. M. thence North 68° East 5.76 chains to East end line of Nevada Q. M., thence South 15° 38' E. 1.86 chains to Section line between Sections 17 and 20; thence North 88½° 5.62 chains to the NW. Corner of the Nute Placer Mine; thence South 2° West 12.75 chains, thence South 45° 27' East 10.04 chains to post M. H. R. 6; thence North 88½° E 40.86 chains more or less to post M. H. R. 9; the line between sections twenty and twenty-one and thence North 0° 45' W. 20.45 chains more or less to the place of beginning. Also all those certain Placer and Quartz Mining Claims commonly known as the Sharp Consolidated Mining Claims and consisting of both Quartz and Gravel and known as the Greenman, Butterfly, Ben Harrison, Glencoe, Hickson, Enterprise. Little Kellog, and Red Rose Claims, and for a more particular description of the above named cleaims reference is hereby made to the Nevada County Recards in Book and pages as follows:

Greenman, Book 26, page 195, Kellog, Book 26, page 196, Rose Claims, Book 126, page 195, Enterprise, Book 24, page 68, Hickson, Book 24, page 69; and Ben Harrison, Book 19, page 161; meaning and intending to convey all the right, title and interest that the said Sharp, his heirs and assigns have or may have to the above described property, together with all personal property and improvement located thereon.

For further description of the above mentioned placer and quartz consolidated claims see Book Deeds 131, page 309, Nevada County Records, and including all water rights, ditches, machinery tools, timbers set upon or connected with or appurtenant to said premises or any part thereof; it is intended hereby to include all patented or unpatented quartz and Placer Mining Claims owned or claimed by the Grantor in Nevada Township, Nevada County, California.

Including all buildings and improvements tereon, or that may be erected thereon; together with all and singular the tenements, hereditaments and appurtenances, water and water rights, pipes, flumes and ditches thereunto belonging or in anywise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions ,remainder and remainders, rents, issues and profits thereof.

Public Notice is hereby given that I will on Friday, the 31 day of July, 1931, at 10 o'clock A. M. of said day in front of the Courthouse door in Nevada City, County of Nevada, State of California, sell at Public Auction for cash, lawful money of the United States, all the right, title claim and interest of the above named defendants, of, in and to the above described property or so much thereof as may be necessary to satisfy said Judgment and costs, etc., to the highest and best bidder for cash lawful money of the United States.

Dated: July 10th, 1931.
GEORGE R. CARTER,
Sheriff of Nevada County.
E. H. Armstrong, Attorney for Plaintiff.
First Publication July 10, 1931.

### SUMMONS

NO. 5928

In the Superior Court of the State of California in and for the County of Nevada.

ANNA LUTHER, Plaintiff,
v.
JOHN JOHNSON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership ,or any cloud upon plaintiff's title thereto, Defendants.

Action to determine adverse claims to and clouds upon title to real property, brought in the Superior Court of the State of California in and for the County of Nevada, and the complaint filed in the office of the Clerk of said County of Nevada.

NILON, HENNESSY & KELLY, Attorneys for Plaintiff, Grass Valley, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:

JOHN JOHNSTON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY directed to appear, and answer to the complaint in an action entitled as above, brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons—if served within this County,—or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or she will apply to the court for any other relief demanded in the complaint.

The following is a statement of the object of the action:

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the property herein described; that the plaintiff is now, and has been, by herself and her predecessors in interest, the owner of and in the actual, exclusive and adverse possession of the property hereinafter described continuously for the period of more than twenty years immediately preceding the filing of the complaint in this action, claiming to own the same in fee against the whole world, and that plaintiff has, by herself and by her predecessors in interest, paid all taxes of every kind and nature whatever, levied or assessed against said real property during the period of five years continuously immediately preceding the filing of complaint aforesaid; that the claims or claim of said defendants is without right, and that they have not, nor has any, or either of them, any right, title, estate, lien or interest in said real property or any part or portion thereof.

The land and property affected by this action is:

All that certain real property situate in the City of Grass Valley, County of Nevada, State of California, and bounded and particularly described as follows, to wit:

All that portion of Lot 9 in Block 27 of the Town, now City, of Grass Valley, as said lot and block are designated upon the official map of the Town of Grass Valley made by Samuel Bethell in the year 1872, and more particularly described as follows, to wit:

Beginning at the South East Corner of Lot 9, on the North line of Neal Street of said City of Grass Valley, from which the South West corner of Lot 8, the intersection of the East line of Mill Street and the North line of Neal Street, bears N 57° 18' W at the distance of 208.11 feet; thence N 22° 34' E along the line between lots 9 and 10, 66.89 feet to the corner common to lots 9, 10 and 12 of said Block 27; thence N 18° 14' E along the line between lots 9 and 12, 47.14 feet to the North East corner of lot 9 on the West line of lot 12; thence N 67° 50' W along the line between lots 9 and 6A, 38.50 feet; thence S 23° 47' W 105.73 feet to the Northerly line of Neal Street; thence S 57° 18' E along the Northerly line of Neal Street to the place of beginning.

GIVEN under my hand and the seal of the Superior Court of the State of California in and for the County of Nevada, this 15th day of May, A. D., 1931.

R. N. McCORMACK, Clerk.
By ....., Deputy Clerk.
(SEAL)
First publication May 22, 1931.
Last Publication July 24, 1931.

## BANK OF AMERICA ISSUES STATEMENT

The distinctive statewide service rendered by the Bank of America in aiding to build up the business, industrial and agricultural resources of Californiais reflected in the semi-annual statement of the institution, published tday. The figures include both the Bank of America National the state affiliate of the same name.

The total assets are placed at $1,120,645,127.58 and the total deposits $962,423,938.96 in the statement. Changes in the "Various Asset" account include an increase of $10,864,812.96 in the holdings of United States government and other bonds, bringing the total of government securities held by the bank to $161,160,116.08.

The items of "Cash and Due From Banks", plus the "Bond Investment" which totals $391,738,707.41 in the aggregate, compares very favorably with the deposits of $962,423,938.96 The decrease since January in the item of "Loans, Discounts and Bankers' Acceptances", which amounts to $63,173,532.56 is in line with present business conditions as the funds received from this source naturally find investment in the bond account.

A decrease in deposits from the January 1 statement is accounted for to a great extent by the use of funds by the U. S. Government and other public agencies and the usual seasonal requirements for agricultural purposes.

"The semi-annual statement of the Bank of America very closely reflects the building up process in which the state is engaged at the present time," Arnold J. Mount, President, said. "Every major business, industrial and agricultural interest, and most of the smaller ones are going through a process of change in order to meet not only the present conditions but to provide for the future grwth that we have every reason to expect. It is a period of economic rehabilitation in which naturally enough, the banking function is called on to play an outstanding part.

"I think it particularly significant that at no time during this period of depression have our banks been forced t adopt drastic measures to meet the situation. They have provided as easily and securely for decreased business as they provided for increased business during more favorable periods."

## SWEETHEART OF THE SALINAS CALIF RODEO

Fresno County's candidate for "Sweetheart of the California Rodeo" at Salinas, Maudine Cleason, will desert her Pal of the Plains for the time being, and will descend upon the city of California's greatest Rodeo by airplane Wednesday morning, July 22nd, opening day of the show. Miss Creason, flower of the Cow Counties of the San Joaquin, and beloved and admired wherever and whenever rodeos are held in the Valley, is sponsored by the Fresno County of Chamber Commerce.

Born tothe saddle on her father's cattle ranch near Sanger, Fresno County, Miss Creason is 20 years old, auburn-haired and brown-eyed, and is an accomplished rider. Since old enough to be lifted to the back of good hores and a participant in events featuring horses. During the events featuring hores. During the competition for "Sweetheart of the California Rodeo" she will ride Silver, a beautiful palomino stock horse owned and trained by J. H. Brewer of the Pastime Stables at Selma, Fresno County. Silver was the mount of Governor James Rolph Jr., at the rodeo parade in Visalia, June 6.

Fresno County's candidate is decidedly the outdoor type of girl. In addition to competing in the "Sweetheart" contest she probably will ride Silver in the stock horse competition during the Rodeo .Miss Creasson is a graduate of Easton High School of Fresno County, was a popular student at Fresno State College, and is at present branch manager of the Western Union Telegraph Company in the Hotel Californian.

Mayor Z. S. Leymel of Fresno will act as the official escort of Miss Creason. She and the Mayor will be the guests of Clayton V. Smith, vice-president and Manager of the Hotel Fresno, flying his own plane to Salinas.

## MOTHER LODE COUNTIES TO CELEBRATE LA FIESTA

LOS ANGELES, July 9, 1931—Word received here that the five Mother Lode counties of Amador, El Dorado, Nevada, Sierra, and Placer, thrugh Native Sons and Native Daughters parlors and other oragnizations, are planning picturesque representation in the Admission Day pageant of La Fiesta de Los Angeles has aroused keen anticipation on the part of those arranging for this city's 150th birthday celebration, September 4 to 13.

It is reported that the counties will combine to produce the remarkably effective scenes shown at Placerville in the Hangtown Celebration. So anxious is the management of La Fiesta de Los Angeles to have that notable contribution that a substantial sum will be appropriated to bring entries here.

Reports indicate tat the counties themselves realize the value to them of showing to the more than one million people who will seethe spectacvles of La Fiesta such features as the Hangtown celebration assembled. Among thse reported to be working on the plan are Mayor J. G Walsh of Auburn and Joseph Scherrer, president of the Placerville Native Sons parlor.

Herman C. Lisctenberger, past grand president of the Native Sons and representative of that order on La Fiesta Association, has been contacting leading members in the Mother Lode district, with encouraging prospects, he states.

It is now assured, according to Lichtenberg and others, that leading counties of Northern and Central California will have impressive floats and other entries inthe Admission Day pageant. This is to be entitled, "California the Golden." It will be one of the outstanding features of La Fiesta.

### BUTTE, MONTANA IS SELLING GOLD PANS

Butte, Montana, for the first time in 40 years is offering gold pans for sale.

Thus Montana revives her oldest and most romantic industry—placer mining. And the boys are taking to the hills.

It sounds odd—hundreds of men drifting into the hills along streams over the old trails along which the frontier forged.

A good living can be made panning the precious metal from old stream beds. Too. there's always the chance to make a lucky strike, a bonanza.

Ghost towns are showing signs of life. An occasinal prospector from one of the is seen in town, a little bottle, or bag of gold dust, giving token of his industry. Others return to the hills with him.
